War is man-made. Every day people die in wars and civil wars. Germany is involved through arms delivery, training of civil war soldiers and the deployment of the Federal Armed Forces. Europe is amidst a new Cold War, and a large-scale war against Russia seems possible once again.

With the Declaration of Peace we want to make it clear that war must not be a means of policy. People here and all over the world want to live in peace. Economic and power interests must not be more important than the Right to Life and Physical Integrity. We as citizens feel jointly responsible. We refuse to support wars and demand of our political leaders to reject any direct or indirect involvement in wars!

In the years 2017 and 2018 we intend to collect Declarations of Peace. In 2018, on occasion of the centenary of World War I, we are going to publicly display these declarations of Peace in Berlin as a large-scale initiative Sammeln Sie mit!

Help us collect! Pass the Declaration of Peace to your friends and family
